XII CEO Report – Bill Patten, CEO - Bill reported on the following:

- Recruitment Update.
- Exploring cross training – looking at adding a Financial Analyst to help with data mining.
- Looking at converting the TPS Director position into two separate manager positions.
- Looking to hire the ROAM’s Director and an Administrative Assistant.
- Thanked the board for attending the Employee Service Awards.
- Inter-facility Transfer RFP - Had a meeting with Brent Jaramillo, County Manager and Chris Medina, EMS Director re. inter-facility transfers and to review a draft RFP. The County has approved the RFP and supports the hospital moving forward. Hope to have this in place by January.
- Interior design project - Have selected Trisha Fong from e4h Environments for Health Architecture for the project.
- Worker’s Comp Safety Reimbursement – This year we will be receiving around $115,000 in W/C rebates.
- Mill Levy – The hospital is scheduled to present to the County Commission on November 19th.
- Capital Appropriation – Bill met with Representative Bobby Gonzales regarding our appropriation request. The hospital’s list is around $5.6M. Once this has been filed we will have to lobby the Governor and will be asking for Board support.
• Safety Net Care Pool – The NMHA has made a preliminary submission to the state regarding the model that the Hospital Association is recommending. The state is close to having the design of that program completed. The way that it looks now through a mechanism called directed payments, and based on our Medicaid volume, there will be an additional payment per encounter that we would receive over and above the fee schedule. If all goes as planned, the hospital could see an annual improvement of just under $300,000; we will know more by the end of this calendar year. The state will submit the plan to CMS for their approval before the end of December.

• PHO Update – Had their meeting last week. The doctors have not really thought through the impact of dissolving the PHO. The hospital stands ready to assist the PHO but does not see a role for the hospital in the ACO. It is Bill’s sense that it may take over a year to unwind the PHO. Dr. Villarreal stated that the PHO has to exist especially for credentialing and contracts. The major issue is how to continue the physicians support for the hospital.

• Town of Taos Board Liaison – Bill reported that he received communication from the Town of Taos that they have an interest in having Rick Bellas, City Manager have a liaison position on the board similar to what we have with Taos County. Bill mentioned Mr. Bellas clearly has experience as it relates to healthcare. This was a request to communicate to the board. Bill is happy to take the board’s message back to the Town. If this change was to occur, Bill’s suggestion is to mirror the language we have on the bylaws related to the County Manager, but it would require a change in the bylaws. Bill recommended presenting the board with draft language and suggested that the board can schedule an interview with Mr. Bellas to get to know him.

XIII. Chief of Staff Report – Tim Moore, MD – Dr. Moore reported on the following:
• Ethics Point reporting system pertaining to physician issues
• Surgeon demands in the OR, conflict and disruption in the OR with surgeons and staff, long hours, and the need to support the staff
• Travelers in the OR and their skill sets and expectations.
• Reviewed solutions to the ongoing issues in the OR
• Unpredictable nature of medicine.
• Handling of trauma patients.
• Commended Dr. Selzer for his work on the Professional Standards Committee.
